REAR VIEW
The circled numbers here refer to the numbers in the first column of the parts list.

CAUTION: THE ROTOR WILL COAST EVEN AFTER THE ENGINE IS OFF. MAKE SURE THE ROTOR IS FULLY STOPPED AND DISCONNECT THE SPARK PLUG WIRE BEFORE ATTEMPTING ANY MAINTENANCE OR SERVICE. IF THE ROTOR IS STILL TURNING, IT MAY CAUSE SERIOUS PERSONAL INJURY.

Several patents approved or pending.
FRONT VIEW

The circled numbers here refer to the first column of numbers in the parts list.

Several patents approved or pending.
CAUTION: THE ROTOR WILL COAST EVEN AFTER THE ENGINE IS OFF. MAKE SURE THE ROTOR STOPS TURNING, THEN DISCONNECT THE PLUG WIRE FROM THE ENGINE BEFORE ATTEMPTING ANY MAINTENANCE OR CLEAN-OUT. IF THE ROTOR IS STILL TURNING, IT MAY CAUSE SERIOUS PERSONAL INJURY.

Detail of the outboard bearing assembly.

The bearing is sealed and does not need lubrication.

Both the shredder hopper and the chipper cone are assembled with the same hardware and wrench.

Detail of the shredder hopper.
